VOLUME 3
MARCH 2013

Joy's Journal

Senator Rubio stated that the government spends 1 trillion dollars; more than it takes in every year and the more sensible remedy is to have a Balanced Budget Amendment that forces the government to live within its means.

Both Obama and Rubio agree that we need comprehensive immigration reform. Obama wants reform to include background checks, paying taxes, learning English, cutting waiting periods, requiring less bureaucracy, and attracting the highly skilled. Rubio agrees with all of the suggestions, but only after our borders are secured.

President Obama envisions a future that uses more wind and solar energy and less oil and gas. He indicated he would cut red tape in issuing new oil and gas permits while protecting our water and environment. There was no mention made of coal and he indicated tax dollars would be used to pay for the development of technology in this area. Senator Rubio advocated relying on private enterprise to develop our energy sources, by opening up federal lands for oil and gas production and reforming energy regulations. This would create jobs and help restore manufacturing in the US. Senator Rubio's answer strongly reinforced the Republican Message of fiscal responsibility, individual rights, small National government, energy independence, and a National defense with secure borders. Many who watched the State of the Union Address did not listen to the Republican answer or pay attention to the differences in the two philosophies so it is up to us to work in our community and our neighborhoods to educate the under informed voters. How can CyFair Republican Women help to keep our Country on a Conservative path? We can continue to offer informative programs at our meetings, articulate the Republican message in simple and easily understood terms to our community, and make every voter feel that their vote is important.

In January and February, much of the news has been focused on covering President Obama's Inaugural Address and his State of the Union Address. There have been many discussions concerning his intentions and plans for the next four years. The main areas of concern seem to be the Economy, the National Debt, the Immigration Policy, and the Energy Policy. We have also heard Marco Rubio give the Republican answer to President Obama's Speech.

In speaking of the economy, President Obama stated that corporate profits are too high and wage increases too low. He proposed his usual balanced approach to deficit reduction, which included small spending cuts and increasing revenues so that everyone pays their "fair share". On the other hand, Senator Rubio advocated the need for real economic growth as it would result in job creation and thus lower our deficit. According to President Obama, the rising cost of health care for the elderly is the main cause of our large deficit thus making modest reforms to medicare are necessary. He did not address entitlements. Senator Rubio stated that the government

Legislative Note from Patricia Harless, State Representative, District 126-February 15, 2013

Dear Friends,

The Speaker has appointed committees and hearings have begun. I am pleased to have been selected to serve again on the State Affairs Committee, and honored to have been named Chair of the Environmental Regulation Committee.

Speaker Straus appointed 26 Republican Chairs and 14 Democratic Chairs. The Speaker had the extraordinary responsibility of assessing the talent and ability of nearly 40 new members coupled with the seniority and overall diversity of the House membership.

Environmental Regulation is a whole new subject area for me and one that I am eager to undertake. The committee's jurisdiction includes all matters pertaining to air, land and water pollution (including the environmental regulation of industrial development), and regulation of waste disposal. The committee also has oversight over agencies that regulate environmental matters, including the Texas Commission on Environmental Quality, The Department of State Health Services and the Texas Low-Level Radioactive Waste Disposal Compact Commission. Serving as Chair of this committee will allow for an inside look at the challenges we face and the solutions available, so that we can continue to protect and preserve the quality of life for the residents of our state. I look forward to working with the members of the committee to address these issues.

State Affairs is one of the largest committees in the House and has jurisdiction over utility regulation, regulation of the residential construction industry, regulation of pipelines and pipeline companies, and the regulation and operation of state agencies, state buildings, public lands and matters of state policy. State Affairs will also have jurisdiction over immigration issues.

In our last newsletter we posed our first "response requested" question. The question dealt with whether or not to allow liquor stores to be open on Sunday. With 96 responses, we found that 69% were for the proposal and 31% against it. **2ND RESPONSE REQUESTED QUESTION:** How do you feel about a Constitutional Amendment that would allow voters to decide on whether or not to legalize gambling in Texas?

I hope you find the information in this newsletter useful. Thank you for the opportunity to represent you in the Texas House. If you have any questions or concerns, please contact my office or email me at Patricia.Harless@house.state.tx.us.

LEGISLATIVE Jan Ott

Funding Texas' Roads – Is increasing the gas tax the answer?

There are lots of challenges facing our legislators in Austin this session. One of the items that will be discussed and which may have possible legislative action affecting the budget, as does almost everything, is whether to increase the gas tax.

I think everyone knows that we have financial challenges with our transportation system. At this time, analysts doubt that there will be any change in the gas tax as it is politically unpopular, but, some lawmakers feel it is too important to ignore. The 20 cent gas tax has not changed since 1991 and since it is not tied to inflation or when you consider the increased fuel efficiency of vehicles it has been a declining source of revenue. Another thing to consider when looking at the gas tax is that not all of the money from this source goes to transportation.

Some Republican lawmakers argue that increasing the gas tax is a more conservative approach than to go billions of dollars into debt. Transportation debt accounts for 57.6 percent of the debt that will be issued in 2013. The \$10 billion dollar per year Texas Department of Transportation agency has said that they need an additional \$1 billion annually for maintenance and another \$3 billion to grow the state's road system. Without more funding, reliance on debt and toll roads is the only alternative. Both of these methods are the most expensive way to maintain our road system.

The needed funds could also come from other sources of existing revenue. Currently, part of the gas tax goes to the TX Dept. of Public Safety. If that were changed and the state troopers were funded from the general revenue fund that would free up more dollars for roads. Another 25 percent of the revenue goes to public education and cannot be changed without voter approval. Other ideas would allocate sales tax from the sale of new and used vehicles to transportation or sales tax on auto repairs could be dedicated to roads. Vehicle sales taxes represent \$3 billion/year in funds that goes to the general revenue fund.

Other ways to increase the revenue stream from new sources besides the possible increase in gas taxes would be to increase vehicle registration fees by \$50 which would also impact consumers and alone would not be

Whatever way we go, we want to encourage our lawmakers to make smart choices on how our dollars are spent. Funding sources must be predictable, transportation related, and automatically adjustable for inflation. We know our roads are a necessary part of our infrastructure and part of government's core responsibility and they must be funded to meet the mobility needs of our rapidly growing state.

18 members Women of Cy Fair Republican attended Voter Deputy Registration Training in Downtown Houston at the office of Mike Sullivan, Deputy Registrar for Harris County.

Thanks to those who attended the Voter Registration Deputy training last month.

Caring for America Chairman, **Millie Alford** thanked the ones who brought items for *Operation Interdependence* for their care packages. Another good item to start collecting are extra condiment packages from fast food places – catsup, sauces, etc. As part of her "Remembering Our Own," Millie would like to send Valentine cards to our family members, friends or neighbors who are, or were, in the armed forces. Please give Millie anyone's name and address so she can send them a card.

Cindy will have sign-up sheets for committees at the March meeting.

Reminders: GHC's Nuts-N-Bolts is next Tuesday, February 19. GHC has extended the deadline, so if you would still like to attend see Barbara Buxton today. We will try and set up carpools.

There being no further business, the meeting was adjourned.

Respectfully submitted, Mary Moss

MEMBER SPOTLIGHT

Nancy Roberts, Membership Chair

I was a Navy "brat" and a middle child. I learned patriotism, respect and 'freedom isn't free' early on. Dad was deployed 8 months a year. Mom made sure we were strong and independent as we moved every four years like clockwork. I was born in Indiana and lived in Virginia, Hawaii, California and Illinois before coming "home" to Texas in 1977.

Always interested in politics since being in Young Americans for Freedom in California where CA Representative Dana Rohrbacher, then a college student, was our YAF leader. I lived in Katy for 22 years. I had one child, a son. Mark graduated from Taylor High School and went into the Air Force. Mark died of leukemia/lymphoma in December of 2009 at age of 31.

Stirred to activism by the Tea Party, I subbed at CFRW for Darlene Hajduk in early 2011. Since joining CFRW in July 2011, served as Candidate Forum Planning Committee – 2012, Nominating Committee – 2012, and SD7 Delegate to Texas GOP Convention – 2012. Also, I trained and served as Deputy Voter Registrar for 2012 and Poll Worker for 2012 Primary and General Elections. I Trained with Citizen Emergency Response Team (CERT) for Harris County and Jersey Village Citizen Police Academy, both in 2010.

My husband Jerry and I married eight years ago, after meeting at Second Baptist Church where we have both been members for many years. He retired in December of 2012 from City of Houston Public Works, Purchasing Division Manager. We live in Jersey Village and enjoy walking, bicycling, gardening and traveling. Currently, we are Directors of Sojourners Bible Study at Second Baptist. I stay busy with my home-based AVON business, Jersey Village Women's Group, Red Hat Society, and the blessing of many terrific friends.

As CFRW Membership Chair, I will help build the membership through networking and activities. Goals include membership of 100+ and a tri-fold brochure handout. Please mark your calendars for the April 9th Membership Drive and invite your friends and neighbors to our meeting. In August, we will host a New Member Tea.
